### START HERE

1. Wash your hands. Press **Options**. Select **Reservoir & Tubing**.
2. Select **New Reservoir**.
3. Remove the infusion set you have been using by loosening the adhesive and pulling away from body.
4. Remove the used reservoir from the pump.
5. Select **Rewind**.

### FILL RESERVOIR & CONNECT TO THE INFUSION SET TUBING

Follow the next steps to fill reservoir with insulin and connect to the infusion set tubing.

1. Remove from package. Make sure insulin vial is at room temperature to reduce the risk of air bubbles.
2. Pull plunger down to the amount that you plan to fill with insulin.
4. Push and hold plunger down.

Continued on next page
**WARNING** if insulin or any liquid gets inside the tubing connector, it can temporarily block the vents that allow the pump to properly fill the infusion set. This may result in the delivery of too little or too much insulin, which could cause hyperglycaemia or hypoglycaemia.

With your thumb still on the plunger, flip over so vial is on top. Release thumb and pull plunger down to fill with insulin.

Tap the reservoir to move air bubbles to top of reservoir. Push plunger up to move air into vial.

If needed, pull plunger back down to amount of insulin needed for 2-3 days.

To avoid getting insulin on the top of the reservoir, turn vial over so it is upright. Hold transfer guard and turn reservoir counterclockwise and remove from transfer guard.

**CONNECT RESERVOIR TO INFUSION SET**

You will place the tubing connector onto the end of the infusion set to the filled reservoir.

Remove infusion set from package. Remove the paper that holds the tubing together.

Gently push the tubing connector onto reservoir. Turn clockwise until locked. You will hear a click.

If you see air bubbles, tap reservoir to move them to top. Push plunger just a bit to move them into tubing.

Twist plunger counterclockwise to loosen and remove.

**THE BACKLIGHT MAY HAVE TURNED OFF**

Press any button to turn the screen back on.

Press 0 to open the menu. If the pump is locked, you will need to unlock the pump after pressing 0.

Select **Load Reservoir** from the menu.

Select **Next**.
PLACe Reservoir INTO PUMP
Now place the filled reservoir into the reservoir compartment of the pump.

1. New Reservoir
   - Place reservoir into pump and lock. DO NOT CONNECT TO BODY.
   - Next
   - Place reservoir into pump.

2. Turn clockwise until you feel reservoir lock into place.

3. New Reservoir
   - 3. Place reservoir into pump and lock. DO NOT CONNECT TO BODY.
   - Next

LOAD RESERVOIR AND FILL TUBING
Follow these steps to load the reservoir and fill the tubing.

1. Load Reservoir
   - Select Load and keep holding ☐.
   - Load
   - Next
   - Select Load and keep holding ☐.

2. Load Reservoir Complete
   - DO NOT CONNECT TO BODY.
   - Load
   - Next
   - When you see this screen, select Next.

3. Fill Tubing
   - DO NOT CONNECT TO BODY.
   - Held Fill until drop appears. Then select Next:
   - 0.0 u
   - Fill
   - Next
   - Select Fill and keep holding ☐ until you see drops at the end of tubing, then let go.

4. Fill Tubing
   - DO NOT CONNECT TO BODY.
   - Held Fill until drops appear. Then select Next:
   - 11.3 u
   - Fill
   - Next
   - After you see drops, press and select Next.

INSERT INFUSION SET
Next, follow the steps to insert the infusion set into your body.

1. Fill Cannula?
   - 1. Insert infusion set into body.
   - 2. Select Fill to fill cannula or Done if not needed.
   - Fill
   - Done
   - Place the MiniMed Quick-serter insertion device onto a sturdy flat surface with handle facing down. Place blue hub into serter, placing the handle in the tubing slot.

2. Use two fingers to seat the infusion set inside the serter securely and gently push down.

3. Peel the paper from the adhesive on both sides of the needle guard.

Continued on next page
Hold serter against cleaned site.

Press the two green side buttons at the same time. If they are not pressed at the same time the infusion set will not insert properly.

Press down the release button of the serter to release the infusion set.

Pull serter away from body. Press adhesive against skin.

Hold infusion set. Pull blue handle straight out to remove needle.

Fold blue handle until locked.

Dispose blue handle into a sharps container.
FILL CANNULA
You will now fill the cannula, the little tube under your skin, with insulin.

1. Select Fill Cannula.
2. Select Fill amount and enter:
   - 0.300 if using 6mm cannula
   - 0.500 if using 9mm cannula
   Then press ✦.
3. Select Fill Now.
4. The Home screen displays the insulin as it fills the cannula.

Your infusion set change is now complete!
